

Department of the Air Force, DoD

§ 855.5

defined as a situation that makes continued flight hazardous.

(b) Air Force requirements will take precedence on Air Force airfields over all civil aircraft operations, whether they were previously authorized or not.

(c) Civil aircraft use of Air Force airfields in the United States will be subject to Federal laws and regulations. Civil aircraft use of Air Force airfields in foreign countries will be subject to US Federal laws and regulations that have extraterritorial effect and to applicable international agreements with the country in which the Air Force installation is located.

§ 855.2 Responsibilities.

(a) As the program manager for joint use, the Civil Aviation Branch, Bases and Units Division, Directorate of Operations (HQ USAF/XOOBC), ensures that all impacts have been considered and addressed before forwarding a joint-use proposal or agreement to the Deputy Assistant Secretary for Installations (SAF/MII), who holds decision authority. All decisions are subject to the environmental impact analysis process as directed by the Environmental Planning Division, Directorate of Environment (HQ USAF/CEVP), and the Deputy Assistant Secretary for Environment, Safety, and Occupational Health (SAF/MIQ). The Air Force Real Estate Agency (AFREA/MI) handles the leases for Air Force-owned land or facilities that may be included in an agreement for joint use.

(b) HQ USAF/XOOBC determines the level of decision authority for landing permits. It delegates decision authority for certain types of use to major commands and installation commanders.

(c) HQ USAF/XOOBC makes the decisions on all requests for exceptions or waivers to this part and related Air Force instructions. The decision process includes consultation with other affected functional area managers when required. Potential impacts on current and future Air Force policies and operations strongly influence such decisions.

(d) Major commands, direct reporting units, and field operating agencies may issue supplements to establish com-

mand-unique procedures permitted by and consistent with this part.

§ 855.3 Applicability.

This part applies to all regular United States Air Force (USAF), Air National Guard (ANG), and United States Air Force Reserve (USAFR) installations with airfields. This part also applies to civil aircraft use of Air Force ramps at civil airports hosting USAF, ANG, and USAFR units.

Subpart B—Civil Aircraft Landing Permits

§ 855.4 Scope.

Air Force airfields are available for use by civil aircraft so far as such use does not interfere with military operations or jeopardize the military utility of the installation. Access will be granted on an equitable basis. Air Force requirements take precedence over authorized civil aircraft use. This part carries the force of US law, and exceptions are not authorized without prior approval from the Civil Aviation Branch, Bases and Units Division, Directorate of Operations, (HQ USAF/XOOBC), 1480 Air Force Pentagon, Washington DC 20330-1480. Proposed exceptions or waivers are evaluated as to current and future impact on Air Force policy and operations.

§ 855.5 Responsibilities and authorities.

(a) The Air Force:

(1) Determines whether civil aircraft use of Air Force airfields is compatible with current and planned military activities.

(2) Normally authorizes civil aircraft use of Air Force airfields only in support of official Government business. If exceptional circumstances warrant, use for other purposes may be authorized.

(3) Acts as clearing authority for civil aircraft use of Air Force airfields, subject to the laws and regulations of the US, or to applicable international agreements (e.g., status of forces agreements) with the country in which the Air Force installation is located.

(4) Reserves the right to suspend any operation that is inconsistent with national defense interests or deemed not in the best interests of the Air Force.
